

Hello!

Can you believe it's been a whole month since we completed the transaction on your house? It always feels a bit strange for me to stop being in daily contact with my clients and friends after closing, so I wanted to let you know that I plan on staying in touch! You've been added to my client contact system so that I can send you emails and cards and fun little things in the mail.

Of course please call, text or email me ANYTIME at all if you have questions or problems. I'm here for you. And, if you have family, friends, neighbors, acquaintances, people beside you in line at the grocery store, or anybody else that might need some help evaluating their options on the real estate market, please send them my way.

In the meantime, you should be receiving a new year long subscription to House Beautiful from me starting in the next few weeks. I hope you enjoy it!

Cheers! I'll be in touch.

Hello!

Well, it's been a couple of months since we closed on your house. Moving and getting settled is a huge undertaking! I see families go through the process every day, so I know there are a million little details that can come up along the way. If there is something you need-- a number for a handyman, painter, electrician, roofer etc, please feel free to reach out to one of our friends on the enclosed list.

The one thing that always comes in handy is a fresh, hot meal you don't have to make yourself, so please enjoy a pizza on me!

Of course, please call, text or email me ANYTIME at all if you have questions or problems. I'm here for you. And, if you have family, friends, neighbors, acquaintances, people beside you in line at the grocery store, or anybody else that might need some help evaluating their options on the real estate market, please send them my way.

Cheers! I'll be in touch.

Hello!

Most days my car is my second home. I'm always zooming around meeting clients, showing houses and trying to avoid speed traps ;). I know you're just as busy, and probably spend quite a bit of time in your second home as well. I hope this will come in handy if your car can use some "sprucing up".

Of course please call, text or email me ANYTIME at all if you have questions or problems. I'm here for you. And, if you have family, friends, neighbors, acquaintances, people beside you in line at the grocery store, or anybody else that might need some help evaluating their options on the real estate market, please send them my way.

Thanks again. I'll be in touch.

Hello!

I know how busy weekends are, and if you're anything like me, yours probably include some type of project around the house. I'm always looking for ways to make these projects easier, and have found some pretty good tips on these websites:

www.heloise.com/hints.html

www.doityourself.com

www.hometips.com

These microfiber cloths are great for keeping in the bathroom or kitchen for a quick counter top, mirror or faucet polish.

Of course, please call, text or email me ANYTIME at all if you have questions or problems. I'm here for you. And, if you have family, friends, neighbors, acquaintances, people beside you in line at the grocery store, or anybody else that might need some help evaluating their options on the real estate market, please send them my way.

Cheers! I'll be in touch.

Hello!

I have enclosed a copy of your settlement statement on your real estate transaction last year. Hopefully this will save you some time in the never ending search for the last minute documentation needed for tax preparation.

I hope your new year is off to a great start!

Of course please call, text or email me ANYTIME at all if you have questions or problems. I'm here for you. And, if you have family, friends, neighbors, acquaintances, people beside you in line at the grocery store, or anybody else that might need some help evaluating their options on the real estate market, please send them my way.

Cheers! I'll be in touch.
